

Discovery Junior Program

Discovery Academy is a half day English Immersion program for children ages 2-5 (before kindergarten). We are located in the Calderón area, very close to Simón Bolívar and Panamericana Highways, in a stand-alone facility with beautiful green spaces and learning areas. Our commitment to small group sizes guarantees your child receives the personalized attention necessary to flourish. We are devoted to teaching young children skills to help them prepare for school, while supporting their social and emotional skills development, and teaching Christ-centered values for life-long success. Our program is based on proven successful methods of play and interest-based learning.

Sample Schedule:

9:00-9:45	Free Play
9:45-10:00	Morning Meeting
10:00-10:45	Learning Centers
10:45-11:00	Snack

12:00-12:15	Story
12:15-12:30	Bible
12:30-12:45	Free Play/ Pick Up

Free Play

Gross motor play is essential to a child's development. We have large green spaces with many different areas to explore including a tree house, soccer field, basketball court, swing set, barefoot sensory path, climbing wall, and a trampoline.

Dramatic Play

We experience and make sense of our world through print-rich dramatic play opportunities.

We also learn vocabulary, social skills, and problem solving through this intentional play time.

Bible/ Chapel

Our monthly themes allow us to develop character traits from a biblical perspective, while helping develop our social, emotional, and problem-solving skills.

Morning Meeting

These intentional learning groups encourage formation of community and allow us to build social and emotional skills, learn new vocabulary and learning skills, and learn to express ourselves.

Learning Centers

This time is dedicated to teaching our children foundational concepts in math, science, and language while developing creativity, fine motor skills, and helping children explore and develop their interests.

Story Time

We read stories daily from our large library of engaging and fun children's books in English. Story time encourages a love for literacy as well as developing English language and vocabulary, developing comprehension skills, and teaching foundational concepts of language and print.

Specials

Each week we have art and music classes to develop our creativity, physical education classes to build our gross motor skills, and gardening class where we care for our bunnies and plants. We also get to engage with and check out books in the extensive English library each week to read at home!

Our Teachers

Our loving teachers are fluent in English and have training in encouraging learning through exploration. They are dedicated to providing your child with innovative teaching methods that will help them fall in love with learning and discovering their world! Our teachers create a loving, respectful environment where your child is loved and given personal care and attention in their development
